

VHBA INITIAL TRAINING & CONTINUING EDUCATION CLASSES

The courses below are approved by the Wisconsin Department of Commerce for required Initial Training to receive a Dwelling Contract Qualifier Credential and/or continuing education credits needed to renew a Dwelling Contractor Qualifier Credential.

SEPTEMBER 23

7:30-10:00 A.M.

ETHICS AND THE CONSTRUCTION CONTRACTOR

Dwelling Contractor Qualifier continuing education credits: 2.5

Instructor: Fox Valley Technical College Faculty

Description: This course highlights current ethics issues and demonstrates practical applications for the construction industry. Utilizing case studies shown on DVD, attendees are challenged to find the most ethical ways of dealing with a variety of industry-specific dilemmas.

of attendees X (class price/Member price)

_____ X \$70/\$45 = _____

10:30 A.M.-12:30 P.M.

WI UNIFORM DWELLING CODE

Dwelling Contractor Qualifier continuing education credits: 2

Instructor: Jack Wotruba, WI Dept. of Commerce

Description: This course not only introduces attendees to the most effective ways to navigate WI's Uniform Dwelling Code and related commentary, but it also highlights commonly misinterpreted or overlooked codes. A focus on safety issues as related to the UDC is included. An open question and answer period and a test target the course to both the interests of the attendees and the goal of the Dept. of Commerce to ensure contractors are versed in the state's code.

_____ X \$70/\$45 = _____

1:00-4:00 P.M.

CONTRACTS & LIEN LAWS

Dwelling Contractor Qualifier continuing education credits: 3

Instructor: Attorneys from Remly & Sensenbrenner SC

Description: Participants receive practical insight into residential construction and remodeling contracts and addenda. Liens, right to cure, subcontractor agreements, warranties, draws, payments, quality standards, and real estate practices are addressed. Course materials include the Right to Cure brochure and approved contract and related templates.

_____ X \$70/\$45 = _____

SEPTEMBER 24

7:30 A.M.- 12:00 P.M.

BUILDING SCIENCE

Dwelling Contractor Qualifier continuing education credits: 4.5

Instructor: Joe Nagan, Home Building Technology Services

Description: This course addresses new home construction and remodeling from a whole-house, system approach. Information presented includes best practices for ventilation, drainage, mold prevention, and radon reduction. Air quality issues are addressed. Detailed discussion and real-world examples enhance the relevance and comprehensibility of this course. As new data becomes available, this course is updated and therefore includes the most up-to-date science available for residential construction in WI.

_____ X \$70/\$45 = _____

** To qualify for Initial Training, all four courses must be completed together.*
